JOINT RELEASE - FOR IMMEDIATE RELEASE
 March 8, 2022

New Grant Program Available To Help Fire Hardening Of Homes And Businesses Damaged In the 2020 Archie Creek Wildfires

(Douglas County, Ore.) Douglas County Commissioners, Tim Freeman, Chris Boice and Tom Kress are pleased to announce that Douglas County is partnering with the Oregon Building Codes Division to launch a grant program to help owners of homes and businesses rebuild after the 2020 Archie Creek Wildfire near Glide, Oregon.

People who own a home – including a manufactured home – or business that was damaged or destroyed by the 2020 Archie Creek Wildfire can receive money for using more fire-resistant methods and materials when they rebuild. Those who have already started the process to rebuild or that have completed their rebuilding efforts can also qualify.

“We continue to make it a priority to find ways to help our residents and businesses impacted by the 2020 Archie Creek wildfires to successfully begin or add to their rebuilding efforts. This latest grant offers an opportunity for these home and business owners to add a few layers of extra protection to help against the threat of future wildfire destruction,” stated Commissioner Tom Kress.

‘Fire hardening’ is an important tool to help make homes more resistant to fire. Fire hardening includes actions that can be taken to make a home or business more resistant to damage from a wildfire, such as using materials for siding and roofing that resist ignition during a wildfire, installing fire-resistant windows to protect openings, or using attic ventilation devices that help reduce ember intrusion.

“These improvements are particularly effective at preventing ignition from embers, which can travel great distances from wildfires,” said Alana Cox, administrator of the Oregon Building Codes Division *“We hope this program will help people affected by the wildfires build back more fire-resistant communities.”*

To qualify for the program, a person must own a home or business that was damaged or destroyed in the 2020 Oregon wildfires. There is a menu of fire hardening improvements, including more fire-resistant roofs, siding and windows, that qualify for grant money (see table below). Once one or more qualifying improvements have been completed, an eligible applicant can receive grant money through the Douglas County Building Department.

To learn more and apply, visit <https://www.oregon.gov/bcd/Pages/firehardening.aspx> or contact the Douglas County Building Department at (541) 440-4559.

The following improvements will be incentivized by the program and the listed incentive amounts will be disbursed to eligible applicants once they complete qualifying fire hardening improvements.

ELEMENT	OPTIONS	GRANT AMOUNT
Roofing	Class B or Class A	\$2,200
External wall covering	Must be constructed from one of the following: <ul style="list-style-type: none"> • Noncombustible • Ignition-resistant • Heavy timber assembly • Log wall assembly 	\$1,750
Ventilation	Options:	\$350

	<ol style="list-style-type: none"> 1. Vents designed to resist ember and flame intrusion 2. Unvented attic assembly 	
Overhangs, cantilevers, and projections	<p>Underside of eaves, soffits, cantilevers, etc., protected by one of the following:</p> <ul style="list-style-type: none"> • Noncombustible material • Ignition-resistant material • Exterior portion of 1-hour wall assembly • 1 layer of 5 /8-inch Type X exterior gypsum sheathing or equivalent 	\$400
Walking surfaces of porches, balconies, and decks	<p>Must be constructed from one of the following:</p> <ul style="list-style-type: none"> • Noncombustible • Ignition resistant • Exterior fire-retardant treated wood • Materials meeting ASTM E2632 	\$550
Windows and skylights	<p>Protected by one of the following:</p> <ul style="list-style-type: none"> • Tempered glass • 20-minute fire-resistance-rated assembly 	\$550
Skirting (manufactured homes only)	<p>Made from one of the following skirting materials:</p> <ul style="list-style-type: none"> • Noncombustible • Ignition resistant 	\$500
Accessory structures within 50 feet of a residential or commercial building	<p>Improve the structure with both the roofing and the exterior wall covering elements above.</p> <p>Up to two structures are eligible for the grant.</p>	\$500 per structure; \$1,000 maximum
